

ADHD

AWARENESS WEEK

OCTOBER 13th to 19th, 2014

ADHD:

1. Is a neurobiological disorder that impacts over 1,000,000 Canadians
2. Affects 5% of children and 4% of adults worldwide & is 80% genetic
3. Can negatively impact relationships, education, careers, finances & health

However, we can also be:

1. Incredibly creative & outside - the - box thinkers
2. Spontaneous & adventurous
3. Passionate, driven, optimistic, fearless and tenacious

FREE Community Information Session on ADHD

Wednesday October 15th, 2014
6:30 – 8:30pm
